This Week

High Wages—Good Times.
A Real Radiogram.
To Hang For an Idea.
McAdoo, Johnson and Ford.
Able British Statesmen.

What makes the United States prosperous? Answer: High wages. Citroen, the greatest French manufacturer of automobiles, says everybody in France ought to have his own automobile. The trouble is: "In America the workman, saving one day's pay per week, can buy an automobile with the money at the end of a year. In France it would take a Frenchman's ENTIRE SALARY for two years."

If you want a good crop, put water and fertilizer on the land. If you want a prosperous country, put good work.

It all comes back to the big people ten dollars for one.

If you are a radio enthusiast, and understand such things, you will be interested in the latest announcement. A message, receiving its only impulse on this side of the ocean, made the trip of 3000 miles to Warsaw and back twenty times, a total distance of 60,000 miles. That is almost twice as far as light and electricity travel in one second. It arrives in now. We see it, and work it, and know nothing about it. Some day we'll send messages in outside space, and with "please answer," knowing that at 180,000 miles a second the answer will not be back in time for our grandchildren to read it.

Eugene V. Debs, says prison didn't frighten him. Right now he would "hang for an idea." That's noble, even in a white, although you must first be sure that your idea is sound. For one man hanged for a good idea, ten thousand have been hanged for ideas thoroughly bad.

If you have a sound idea, don't hang for it. Publish it, repeat it, persuade others to accept it. Voltaire exposed torture of witnesses, breaking every miserable judge in one famous case, after a fight of many years. He defied Frederick the Great and greater powers, and finally died peacefully in his bed nearly eighty-five years old, rich in money, adored by the people that drew his carriage through the streets. He showed the right way to deal with an idea. That was better than poor John Brown of Harper's Ferry, never living to see anything accomplished.

It takes one kind of ability to "hang" for an idea, and it takes a higher kind to convert or hang those that oppose the idea when it is right.

McAdoo lets it be known that he is in the race for President. Of course he is, being the most conspicuous Democratic candidate.

Hiram Johnson will be in the ring also. This is free for all, and Hiram Johnson probably can get more votes in Presidential primaries than any other Republican. Albert Lawler will work for Johnson as he did for Harding. He's a first class dynamo.

One of Mr. Ford's secretaries says he wouldn't accept the nomination for the Presidency. But it isn't Liebold, the real secretary, and probably doesn't mean much.

Mr. Ford has his days for Presidential running and his days for forgetting all about it. If the nomination should come on the right day he would probably take it. Meanwhile he's starting a plant near Philadelphia, to cost twenty or thirty millions, and hire a few thousand men at high wages. That's not bad politics.

Bonar Law lies in Westminster Abbey. American tourists fifty years from now will look at his grave and ask: "Who in heaven's name was that?" as they pass on to the place where Pitt and his father, Chatham, lie in the same grave.

Bonar Law's family is pleased. That's what the burial was for.

They dug up Cromwell and stuck his head on a spear for every one to laugh at and let it gradually go to pieces. They dug up and scattered the dust of Voltaire. But men of that kind, real men, don't need burial in Westminster Abbey. There wouldn't be room in any building for names as big as theirs.

The Government learns that taxes on sales of jewelry haven't been paid. Careful watch is being made, "also with regard to household furniture, pianos and musical instruments."

Could you imagine anything more barbaic, more worthy of a Czar's savings than putting a tax on the sale

Why not tax a child two cents every time it says its prayers? Reading a good book or hearing good music is the next best thing to praying.

COUNTY FAIR HERE AT THE LIBRARY SATURDAY.

The Ladies Improvement Club have a big time in store for the people of St. Cloud for next Saturday afternoon and evening when the Big County Fair will be held at the library grounds on Massachusetts avenue.

Many weird things will be seen and much music will be provided. In the evening lunch will be served, and a general good time is promised for that afternoon and evening. See their announcement on page five of this issue.

WATCH OUT FOR POLLY TICK!

People of St. Cloud are warned to be on the lookout for two notorious characters that are heralded to arrive in St. Cloud on Tuesday, Nov. 27, known the world over as Mrs. and Mr. Polly Tick.

Just what these folks expect to do here is untold, but the Daughters of Veterans have arranged to capture them and together with the band of hangers-on (that's what politicians' sidepartners are called) and to stage them at the G. A. R. hall for the benefit of the amusement of the general public.

It is said that the noted Mrs. Polly Tick can outtalk the famous W. J. and outpolitic Tammany Hall. That's what the folks of St. Cloud can find out if they go to the G. A. R. hall to meet these folks on November 27.

BIG COWBOY ROUNDUP AT KISSIMEE ON NOV. 22-23-24.

The Makinson-Carson Post of the American Legion, at Kissimmee have secured the big cowboy roundup at Orlando the first of the month, for three days performance on November 22, 23, and 24, and their announcement of the program will be found on page eight of this issue of the Tribune.

This roundup is in no sense a wild west show. It is wider than the wildest dreams of the star performer of the wildest arena, and an invitation has been sent to all cowboys in Osceola County to join in the three big days at Kissimmee. Motion pictures will be made of the parade and performances by the Fox Film Co., to be sent out in their daily news pictures on Saturday November 24, and everyone in the county is urged to get in the parade that day to make a good showing for this roundup.

See their announcement on page eight.

CAME FOR A WEEK'S VISIT. CATCHES REAL ST. CLOUD SPIRIT; GAVE FIVE DOLLARS

Ed Fuller, of Miles Pond, Vermont, arrived in St. Cloud the past week to spend several days visiting at the home of his sister, Mrs. F. R. McAdoo, and while riding out to the city park with R. W. Porter to see the work in progress on the tourist club house became interested in the many public improvements going on in the city, and promptly handed over a \$5 bill to help the good work go on. He has become so well pleased with St. Cloud that he is looking for a location intending to make his future home here. He is a good booster—the kind we are glad to welcome here.

RED CROSS CALL SUNDAY AFTERNOON SEES ST. CLOUD IN LEAD FOR THE COUNTY.

Following a get-together luncheon meeting Saturday afternoon the workers for the annual Red Cross Roll Call started out Sunday afternoon at one o'clock to call on the residents of the city to enroll every citizen as a member of the St. Cloud Chapter, American Red Cross. The drive continues until Thanksgiving Day and while there will be members coming into the chapter every day for some time, the drive Sunday afternoon brought in \$454.85 cash and a few over 400 members, thus placing St. Cloud in the lead for the one day drive in Osceola county. Kissimmee reported the Sunday drive at \$370 and 301 members.

On account of the fact that Monday was a holiday many persons had left home on Saturday and was not to be found at home when the division workers called, and these will be visited by the workers during the remainder of the drive period. It had been planned to complete the drive here in one day, 500 members being our quota, but conditions as stated prevented this being accomplished.

With the resident nurse, Miss Liles on the job, it is thought interest will increase during the remainder of the drive and that St. Cloud will go over the top on its quota. The exact figures from each of the four divisions have not been completed. Members are coming in each day, but this report will be ready to read on the occasion of the regular chapter meeting which will occur on December 3 at which meeting the annual election of a chairman, vice-chairman, a secretary and treasurer will occur. This meeting will be held in the G. A. R. hall, and every member is requested to attend. A roll call of all members enlisted to that date will be read that night.

Much praise is due the sectional workers for the fine organization and for the results obtained. Mrs. Lila Atwood, of the northeast section of the city came in with the largest returns this year, while Mrs. Clara Kenney, who was first last year for the southeast section came in second this time, but had many call book notes to follow up, and just how

The fifth anniversary of the signing of the Armistice which ended the World War on November 11th, 1918, was celebrated in a very appropriate manner in St. Cloud last Monday, under the direction of St. Cloud Post No. 80, American Legion.

The exercises began with a master parade led by the massed colors of G. A. R., W. R. C., and American Legion followed by the St. Cloud Band, Drum Corps, G. A. R., Florida War Veterans, Olivet Chapter Knights Templars, American Legion, Woman's Relief Corps, Boy Scouts of America and school children. The color bearers and guards were: W. R. C., Mrs. J. M. Raymond; G. A. R., C. W. Denny; N. W. Brechnhoff; W. F. Kenney; Legion, Lloyd Hettiger; Elmer Davidson, Dan Armstrong and Harry McKay.

The parade formed at the G. A. R. Hall with Lieut. W. E. Frank acting as Grand Marshal. Promptly at 10:30 the parade moved along Eleventh St. to Pennsylvania avenue, thence north on Pennsylvania avenue to Tenth St., thence East on Tenth Street to Ohio avenue and North on Ohio to the city park.

Upon arrival at the city park the different organizations found their places and promptly at eleven o'clock taps were sounded followed by one minute silent prayer by Chaplain W. E. Frank of the local post of the American Legion. After prayer the band rendered "America" which was followed by a flag presentation by Rev. W. F. Kenney. The flag was given to the American Legion Auxiliary by Mrs. Vreeland in memory of her late husband, J. O. Vreeland. The flag was received by Mrs. Edith Childers, president of the Auxiliary.

Lieut. Frank introduced Rev. J. A. Sutton, of Orlando, the speaker of the day, who chose as his subject "The United States a Child of Providence or the Hand of God in Our Government." Rev. Sutton in his very pleasing manner proceeded to show from historical research that a Nation that did not conform to the will of God could not stand and cited the struggle for existence and downfall of those who forgot God. He showed the hand of God in our own country from the very beginning to the present time, guiding in every great crisis. He praised "the saviors of our country"—the soldiers and sailors of all wars—and stated that they were entitled to and should receive every just reward. His address was an inspiration to all, and those present were held by his eloquence and the great truths which he presented. The Legion is to be complimented upon securing Rev. Sutton to make the address of the day, which without doubt was enjoyed by all who were fortunate enough to be present.

Several selections were rendered by the St. Cloud Band throughout the program, and the band is the recipient for the excellent music furnished, and for the great improvement shown during the past few months. "The Star Spangled Banner" followed the address of Rev. Sutton and closed the program.

One other item of importance which should not be overlooked was the splendid turnout of the members of Olivet Commandery, Knights Templars of Orlando, who acted as honor guard of the members of the American Legion during the parade. The Knights were in full uniform and made a splendid showing on their first appearance in St. Cloud. They deserve thanks for the patriotic spirit which prompted them to accept the invitation to be present on this occasion.

A delightful cafeteria dinner was served in the park by the Auxiliary of St. Cloud Post American Legion, which was enjoyed by those fortunate in getting in line. Practically everything provided for the dinner was sold and thus a neat sum was realized. In the afternoon and evening a feature picture, "Mighty Lak a Rose" was shown at the Palm Theatre as a Legion benefit. This was largely attended and the proceeds also went into the treasury of the Legion Post. The day was a success in every particular, and is one that will be long remembered in the hearts and minds of all those who participated.

CHAMBER OF COMMERCE WEEKLY LUNCHEON AN INTERESTING AFFAIR WEDNESDAY NOONS

The regular weekly luncheon of the St. Cloud Chamber of Commerce was held in the rooms of the organization on Wednesday noon of this week, a large number of members and visitors being present. Many matters of interest to the welfare of the city were discussed at the meeting and much enthusiasm manifested.

President L. M. Parker presided at the business session, which opened with the reading of the minutes of last week's session which were approved as read. No report was had from the membership committee.

The report of the advertising committee was made by Mr. L. U. Zimmerman, chairman, who among other things suggested that a committee be appointed to look after the collection for the cuts that were used in the new folder recently published, as some agreed to pay cost of having cut made for the folder, and this money could be used to advantage at the present time. He also stated that he had been approached by a representative of the Kissimmee Valley Gazette regarding taking space in the Booster Edition of that paper to be published in the near future. Mr. Zimmerman stated that he favored the proposition provided it was an Osceola County paper.

It was merely advertising the city of Kissimmee. The matter was discussed pro and con and finally upon motion it was decided to pass the matter up on account of the finances of the organization not being sufficient to take the matter up at the present time.

President Parker brought up the matter of having signs placed in Kissimmee showing the way to St. Cloud. Permission has been granted by the City Council of Kissimmee and the Kissimmee Chamber of Commerce has kindly consented to place the signs furnished by the St. Cloud Chamber, and it was his opinion that the matter should be given immediate attention.

It was also brought out that people have to stop and make enquiry of how to reach St. Cloud and are thus delayed and often times misdirected, and that such a sign would help avoid all such confusion. It was also moved and carried that a letter be written by the secretary to the Kissimmee Chamber of Commerce expressing the appreciation of the organization for the assistance of that body in getting the road leads to St. Cloud in its present good condition, the road having recently been repaved and tolled.

The Band Committee report was made by Mr. S. W. Porter, chairman, who stated that since last report he had received the following contributions: Mrs. Gnertrum, \$5.00; Mr. J. A. Eggenson, \$5.00. He stated that a concert will be held in the city park next Sunday afternoon at 3:45 o'clock. The band stand has been moved to the park by Mr. McKay, and he was given a vote of thanks for his services. Alterations will be made immediately and the band stand will be enlarged and improved to meet the present requirements. Mr. Porter stated that any volunteer labor would be gratefully received in order to complete the work by next Sunday.

In making the park report Mr. Porter stated that there had been no

CITY COUNCIL ADJOURNED ACCOUNT OF DEATH OF MEMBER; FINISHED WORK ON WEDNESDAY

Monday was the date for the regular monthly meeting of the city council, and when they met, at 10 A. M. the information was conveyed to them that one of their members, Albert Diefendorf, had died the evening before, whereupon adjournment was taken until Wednesday morning out of respect to their associate, and the council attended the funeral in a body on Tuesday afternoon.

Wednesday morning the session was called to order at ten o'clock by Mayor Parker, and resolutions of sympathy were at once adopted for Mr. Diefendorf, and spread on the minutes of the council and will be published next week.

The first matter taken up was the proposition of S. W. Porter to write some insurance on the new tourist club building in the city park which will soon be completed. As the buildings were being paid for by donations the council thought they should protect them from loss and ordered a policy of \$10,000.

Capt. Farris asked the council for permission to install certain water connections in his office building on Tenth street, which was agreed to.

M. H. Hynes asked for water extension of Michigan avenue, and it was ascertained that the petition that was located in did not represent more than 50% of the owners, so the petition was referred back for other signatures.

This for sidewalk on Massachusetts avenue between Fifth and Sixth Sts. were opened and the contract awarded to J. K. Sage, the lowest bidder.

Hids for placing new windows in the southside of the city hall building on the second floor were opened and the job given to Daniels & George, the lowest bidders.

The matter of placing new lights on the auto camp ground on Tenth

volunteer labor since the last report as all of the work had been on the roof, and the yeoman men for this week to turn out to complete it. The amount paid out up to Saturday of last week was \$44.00. The amount received since last report was as follows: Mr. Goodwin, \$5.00; Mr. Reagan, \$1.00; H. G. Bigelow, \$5.00; Mr. McCrellis on former pledge, \$10.00. Mr. Porter urged that all pledges be collected if possible in order to care for the income bills for lumber and other material. The work is going forward and each week shows the building further towards completion and all citizens who have not yet contributed a day or more to this cause are urged to do so at the very earliest possible date.

Mr. V. Clyde Edwards of the finance committee reported that he and Mr. McGill had been out out soliciting pledges and donations from the business men who had not yet assisted the Chamber of Commerce financially. He stated that they had met with quite a bit of success and that the list to date would be turned over to the treasurer, and that they would continue their efforts. Mrs. Foster also reported the following collections for the past week: F. E. H. Pope, \$5.00; Mr. John McCarthy also made a report of the moneys received for the park fund.

Mr. Gus Hoppe, a recent new resident of the city, was present at the invitation of the Chamber of Commerce, and spoke on the practicality and advisability of securing a flour mill for this location. He stated that in his opinion as there was no wheat grown in this section of the country and that it would have to be shipped in from the north, it would not be practical on account of the excessive freight rates and marketing difficulties. After some discussion it was decided that the matter should be indefinitely postponed.

Miss Crawford, field representative of the American Red Cross, was the guest of the Chamber of Commerce on this occasion, and spoke of the great work being accomplished by her organization, showing just where the money contributed went and the real good being accomplished not only in our own community and state, but throughout the whole Nation. She urged every member of the chamber of commerce to co-operate and support the movement and to urge all her friends and neighbors to renew their membership in the Red Cross if they failed to do so in the drive held on Sunday, Nov. 11th. President Parker thanked Miss Crawford for her splendid address and assured her of the continued support of the organization.

Rev. Wm. Hall, of the tourist association, spoke regarding the tourist element. He suggested that means should be provided for assisting newcomers in the city, as well as those who may be passing through. He stated that a place should be provided where tourists could secure information, register, etc., and that a few comfortable chairs should be provided, the room to be in charge of a clerk at all times. He stated that if such a place was provided by the

street was brought up and the work ordered done at once.

The matter of regarding Seventeenth street from Massachusetts avenue to Jersey avenue was brought up, and as this street is half in the city and half in the county, agreement was reached with the county commissioners that if the city would do the work all the way the county would pay half the bill. This was agreed to.

C. W. Bassett asked for and was granted a permit to add a sheet iron building 8x10 to his Massachusetts avenue building.

Discussion of opening alleys resulted in the street commissioner being instructed to accept the land and open all alleys that are offered in the blocks that were not provided with these ceter passages when platted.

The light department was instructed to provide extra lighting for the library grounds on Saturday night when the Big County Fair will take place for the benefit of the library.

The clerk was instructed to sell the east 100 feet of lots 1-2 and 3 in block 153 for paying assessment taxes.

A new city pound is to be inspected by the councilmen this week property owners near the present city having asked that the stables and pound be moved.

Afternoon Session.

At the afternoon session Sam Brainer appeared before the council to get an understanding about water and light service for the new high school. It was agreed to place fire plugs on each corner of the school grounds and to take up the matter of the extension and size of water mains to the building at a later meeting to be called when needed.

All the monthly bills were read, approved and ordered paid.

Adjournment was taken subject to the call of the mayor.

AGRICULTURAL POINTERS

By JUNE H. GUNN,
County Agent.

Yes, Ocala will have a Fair again this year. The County Commissioners at their last meeting discussed it thoroughly and in view of the excellent showing made last year by the farmers at the fair decided to put up money with which to put it on again this year. Let's make it the best ever put on in the county. The dates will be January 23 to 29th inclusive.

Did you hear what Ocala's first set of vegetables brought on the market? Listen Four to Five dollars for Melons, Peppers, and Cukes. The majority bringing from four seventy five to five. Topping the market with every article shipped shows that we can put the Quality behind our Truck.

One more warning about Fertilizer—your bearing trees this fall. We don't expect them to produce a large crop unless we put the food there for them, and the spring application will be too late to make your trees put on heavy bloom. The trees are beginning now to store up food with which to produce the bloom in the spring. A good application now with a low per cent of Ammonia will not make the trees put on a new growth at all—is sometimes thought.

Several farmers are experiencing trouble getting their plants to "root" off on low ground this fall due to the fact that the soil is being soiled. Keep the middles well cultivated so the air can get into the soil and if very bad apply a liberal application of hardwood ashes even this late and you will make a difference in your plants.

Don't forget to use the cutworm done in your truck and strawberries as cool weather is when they do their worst damage. The formula for mixing this dope was published in last week's paper or can be found in Bulletin No. 151 here in the office which can be had for the asking.

Be sure to use enough fertilizer on your truck crops. If you haven't already gotten it on apply it as a side dressing. It is best to apply it 4 to 6 inches away from the plants and then work it into the soil very lightly. Do not go deep around your plants as it will surely cause the plants to drop their fruit.

Don't forget to save up a good exhibit from your farm for the Fair in January.

Among the interesting birds imported into this country the month of September was a "Kiwi" shipped from New Zealand for the National Zoological Park at Washington. The Biological Survey of the United States Department of Agriculture is now permits for all shipments of foreign mammals and birds sent in to be taken when necessary in order to protect this country from the introduction of species which may prove injurious to agriculture. The kiwi, which is native only to New Zealand, and even there approaching extinction, is rarely imported into United States. The present specimen is the first that has been on exhibition in the National Zoological Park for 15 years. The last shipment was made in January 1906. One of the birds coming in at that time lived two years.

The value of cleaning wheat at threshing time is once more demonstrated in experiments conducted in Minnesota and the Dakotas by the United States Department of Agriculture. Farmers co-operating in the experiments with the most successful reaper gained an average of 7.3 cents per bushel on each bushel threshed. Various types of cleaning machines were operated in connection with threshers.

Rusts—Work of reconstructing state highway at this point to begin soon.

Schooling—Construction of hotel Nonesuch rapidly nearing completion.

Housework should be as highly organized and efficient as in any store, office, shop or business. Full advantage should be taken of every opportunity to eliminate labor, wear and tear.

Laundrying which washes clothes snowy white without uses of strong acids; saves wear, tear and impairing of woman's health; calls for and delivers family washings promptly, is home-efficiency and service which all successful wives do not hesitate to install in their homes. It's a saving in money, health and is for home-happiness.

JOHN HART DAVIS REMOVED BY DEATH

Comrade John Hart Davis, one of St. Cloud's oldest residents, passed away Tuesday morning at 9:45, Nov. 13 1923, at his home, 222 Illinois Ave.

Mr. Davis suffered an attack of influenza and chronic bronchitis two January, and since that time has never regained his health.

Mr. Davis was born in West Virginia on October 25, 1840, and for many years was a merchant and postmaster in Clendenin, W. Va. In the fall of 1913, on advice of his doctor, Mr. Davis came to St. Cloud and from the time of settlement he has not only recovered his accustomed vigor but also enjoyed the sunset of his life in comfort and contentment until two years ago when his health failed due to his advanced age.

Mr. Davis was prominent in church and fraternal circles, and as a Christian of noble traits he commanded the esteem of everybody he came into contact with.

Funeral services over the body of Mr. Davis will be conducted this (Thursday) afternoon at two o'clock from the Methodist Episcopal church, Rev. Wm. Landels officiating and the G. A. R. Post and L. O. O. F. Lodge assisting. At the conclusion of the ceremony, the remains will be shipped this evening to Clendenin, W. Va. for interment.

Surviving their beloved father are three sons, Russell W. Davis, St. Cloud, Fla.; John W. Davis, Charleston, W. Va.; and Edwin B. Davis, Clendenin, W. Va., and two daughters, Miss Gracie H. Davis, St. Cloud, Fla., and Mrs. Frank E. Philpott, Fort Lauderdale, Fla.

Resolution

WHEREAS, the Republican party at the last general election in November, 1920, cast more than 70% of the entire vote in Ocala County, Florida, for its candidate for governor, and

WHEREAS, under the provisions of Chapter No. 8582 Acts of the 1921 Legislature, said Republican party, by casting the said vote, is declared to be a political party within the meaning of that chapter, within Ocala County, Florida; and

WHEREAS, under the provisions of that chapter, it will be necessary for the Republican Party of Ocala County, Florida, to nominate all their elective county officers in Ocala County, under the provisions of law governing primary elections.

THEREFORE, BE IT RESOLVED, by the Board of County Commissioners of Ocala County, Florida, that the Republican Party in Ocala County, Florida, be put on notice that it will be necessary for them to nominate, in a primary, all candidates for County officers who they desire to run in the general election to be held in November, 1924, and that no names of any Republican nominees will be printed on the ballot unless nominated in a primary and according to law.

Low Aims Like Low Towers Are Quickly Realized.

How To Build Up Our Town

Building a community is everybody's job. The home owner, the landlord, the merchant, the housewife, the minister, the doctor, the school principal, the governing board, the civic societies, the policemen, the firemen—in fact, everyone with a distinct home interest must play his part. The local newspaper is the point of contact through which these various elements must function and express themselves. The home town publication is a mirror of the life of the community, inspiring, suggesting, helping and usually sacrificing a great deal to the general work of upbuilding. It is the concentrated reflection of the home town interest, as opposed to activities in its midst, whose sole aim is to take the home town dollar out of town and attach it to the bank account of some foreign corporation.

The appeal of the foreign corporation for the home town dollar is usually an appeal to cupidity camouflaged as safe and economical buying. For the most part it is made in secret—direct by mail—the circular, the booklet, the disguised mimeographed letter systematically prepared by expert mail salesmen, with the usual "follow ups" destined to extract and carry away to the distant bank account the money of the unthinking. The very secrecy of the appeal is its own condemnation.

It is amazing to note how slow is the average newspaper reader to appreciate the value of frank and open newspaper advertising. Not only in this way is the housewife enabled to learn what the market has to offer, but in the frank open advertisement lies an absolute security from exploitation. Newspaper advertising is the housewife's weekly insurance. The day has passed when the advertiser dare be dishonest. The statements in an advertisement are shouted from the housetops. They are too easily checked up. They become the guarantee of service and of honest dealing. The direct-by-mail appeal is like the secret whisper passed from ear to ear but without any general publicity that ensures complete honesty of statement. As a rule, its underlying principle is sinister. To supplement and become a part of any well-organized campaign it has its value, but standing alone it should arouse suspicion rather than confidence.

CHAMBER OF COMMERCE LUNCH INTERESTING AFFAIR ON NOONS EACH WEDNESDAY.

Continued from Page One.

Chamber of Commerce that the tourist association would agree to furnish the lunch.

Mr. E. H. Richards of the Richards-Camp Grounds at Alligator Lake, sent word to the Chamber of Commerce of what people in other parts of the state are saying regarding the St. Cloud-Melbourne road. Some were told the road was impossible, others state that excellent prices are charged for transporting across the St. Johns marsh and urge parties to make the trip to the East Coast by way of Sanford and Daytona. Mr. Porter stated that all this is untrue and that the road is in fair condition and that steps should be taken to correct the erroneous statements that are being made. It was discussed in detail and finally decided to ask the cooperation of the Kissimmee Chamber of Commerce in correcting this misleading information.

Rev. Cullen, new to the St. Prothymian Church, was the guest of the Chamber of Commerce. Rev. Cullen assured those present that he wished to cooperate in every way possible in the advancement of the city.

Mr. McKay suggested that a whistle should be provided either at the city power plant or the ice plant which would blow two or three times a day, and stated that this would be useful in many ways. The matter was discussed and President Parker stated that the city council had the matter under advisement and that the whistle or siren would no doubt be provided just as soon as one that would meet the approval of the council could be found.

Governor Pinchot explained that the new waste award to miners must be carried by the operators and that coal prices to the public must not be raised. What were you paying for coal three months ago, and what is the price today?

You can buy a wonderful apple in a New York Fifth Avenue shop for twenty-five cents.

A New York girl was arrested last night for smoking a cigarette on a ferryboat. She should have come to the city.

Three automobiles from Cincinnati, O., coming by the way of Washington, D. C., arrived in St. Cloud last week and brought the following persons to spend the winter: Mr. and Mrs. Herman Richter, Mr. and Mrs. George Schmitt, Elmer Turner and Louis Richter. They are stopping for the present at the home of Dr. and Mrs. Dodge.

Mr. and Mrs. Levi Shambow and Mr. and Mrs. A. M. Doughty went to Tampa Saturday to visit with Mr. and Mrs. Chas. H. Morris, who were here last winter but later located in Tampa. The Shambows returned home Tuesday but the Doughtys will remain until Saturday.

Mrs. Constance Rankin, Illinois, and her sister, Mrs. Tramp, of Bloomington, Illinois, landed in St. Cloud last Thursday evening and are now located at Manassah and Fifth St., near their old friend, Mrs. Cleveland, to pass the winter and have already met St. Cloud and its friends.

Mr. and Mrs. E. Hays and Mrs. Steinbock were in Leesburg during the past week and brought home some samples of the paper being made at that place out of the sawgrass. Mr. Hays is a stockholder in the Leesburg mill and was much pleased with the operations when he inspected the plant. The samples will be on display at the Chamber of Commerce.

Mr. and Mrs. Amos Kiehl and daughter, Mrs. E. B. Dickey, who have spent nine winters in St. Cloud, have returned and expect to make this their home. Having sold their home in Crossburg, Pa., this son and brother, W. Frank Kiehl accompanied them to St. Cloud and will reside here.

Porters Park Report.

Workmen have been busy this week putting the roof on the large tourist club house in the city park and laying the floor has been started by a group of new workmen put on the job in the past few days.

There was no volunteer work on last Thursday and Friday, but on Saturday C. H. Robbins put in a half day; J. P. Blood also a half day. Monday being a holiday no work was done in the park.

Tuesday the following were on the job: J. P. Blood 1 day; Wm. Landless 1/2 day; Ernest Volkert 1 day; G. H. Barber 1 day.

Wednesday—E. Barber 1 day; J. P. Blood 1 day; Mrs. C. M. Chadwick provided a workman for the whole day; W. H. West, 1/2 day.

The following contributions have been received by Mr. S. W. Porter, in charge of the work for the Chamber of Commerce park committee: W. H. Gorman, \$5; Henry G. Hinson, \$5; W. H. Hough, \$1; Ed Fuller, \$5; total \$16.00.

Mr. Porter says the committee is now in need of a large number of volunteer carpenters to be working on the roof. During the past two weeks the framing of the roof has made it necessary to employ help as many who could do floor work and were willing to help, could not do so on the roof. Show up on the work next Monday morning with your little hammer and make your knocking become a boom for the town.

Band Report for the Week.

Contributions reported by S. W. Porter for the band, during the past week are: J. H. Ferguson, \$5; T. O. Holliday, \$5; A. P. Bass, \$2; Prof. H. P. Zetserauer, \$2; Mrs. Laura Guerdon, \$5; J. A. Epperson, \$5; James Hansen, \$1—Total \$25.00.

The band has been holding regular rehearsals each week and have worked up a long list of selections for the winter concerts that will delight the home folks and thousands of winter visitors in our midst with their weekly open air concerts.

CELEBRATE FORTY-FIFTH WEDDING ANNIVERSARY

On last Tuesday evening a delightful gathering took place at the Jay-Land Beach Hotel when Mr. and Mrs. Z. T. McChay celebrated the forty-fifth anniversary of their wedding with a large number of friends and neighbors. Mr. and Mrs. McChay are among the pioneers of St. Cloud, and Mr. McChay has held numerous public positions in the city, and both have a host of warm friends, who extended to them congratulations and best wishes for many more such occasions. This was also the birthday anniversary of Mrs. W. H. McIntosh, of the Jay-Land Beach Hotel, and all the parties made merry together with their many friends, and occasion is one that will long be remembered by those present.

OLD TIME REVIVALS

This country needs an old-time revival of religion. If it does not come soon the soul of America will be stunted. The churches must have it; the ministers are dying at heart for the lack of it. We do not need any more professional, highly organized, commercial evangelism. The country has been cursed from such, the Church has been nauseated by such buffoonery. An old-fashioned revival of religion, in which the heart will be stirred and the whole life brought in review before God, is absolutely necessary.

The pulpits have been filled with clothing store dummies long enough. They should be filled with men, live, virile, sympathetic men who believe great fundamental, supernatural doctrines.

The pulpits of the land should be filled with men whose hearts and emotions are on fire with the love of God, and an uncontrolable passion for souls. The pews should be filled with men who believe, and with men and women who can pray. The churches should be crowded with men who are mourning and groaning over the sins of the world, over the fact that thousands are going to hell every day. Both men in the pulpit and in the pew should be conscious of God's presence and power to save.

Revivals are prayed down, they are not organized and pumped up. The churches of this country must be revived. The safety, hopefulness, prosperity, progress and sanity of this nation demands a great, soul-stirring, nation-moving revival of old-time religion.

Let us pray with greater power than we have ever prayed before.

RICHARD LLOYD JONES SAYS

Thoughts Sculpture Your Face

When Richard Mansfield was once asked to name the greatest beauty in life and his interrogator expected the customers were "truth," the famous actor promptly replied, "The human face—see a face once and you can find it among millions. It is the door-plate of individuality."

The face is the mirror of moods. It is the echo of the heart. No artist can paint its changing countenance—no science has found the sculptural power of the mind to mould it.

Faces are as legible as books. Behind each is a story of expressed, suppressed or latent power and romance. In every human countenance lies a history or a prophecy.

The face is the gate through which children and dogs find gentle and generous souls. Sad hearts will drift to a serene face as a flower leans toward the warm sun.

Birth gives us the unmarked outline of a face which it is the mission of life to fill in for us. The faculty that raises us as human beings is the faculty of choice. It is by the way we "choose to choose" that we make or mar our faces and our souls.

The soul is the exacting tyrant of the face. She makes it to suit herself and to reflect her slightest whim. Should the soul be sullen she at once moulds the features to tell her mood.

The soul writes upon the face what she chooses. When weary of being housed in the body the soul takes flight but leaves her indelible record on the face.

It is common practice to yearn for our departed youth. Youth is but becoming crudity. Honored is the soul that early "chooses to choose" the art of conduct that leaves the least regret and little wishing that "it might have been."

In the finest sense the noblest use of life is, as Ruskin would say, to picture "The good, the true and the beautiful" on your face.

Our leadin' men have ever failed to keep the wheels of progress oiled. We find 'em, active day or night, holdin' aloft their shining light. They somehow, never seem to tire at heavin' coal on Whiston's fire. There ain't no realm in mortal ken, that shuts it door on the leadin' men!

The biggest job on earth, I guess, is done around the printing press. A feller's most important needs is satisfied by the thing he reads—unless, perchance he finds it bad—and then, he'll change, or wish he had! The press must rise, or falter then, by what it feeds to our leadin' men.

Bread, wisely on the waters cast, is certain to return at last. A liberal fund of common sense, will reap a liberal recompense. If we would pass the supreme test, it pays to do our level best, —and, though our lot be high or low—it's the leadin' men that runs the show!

single man that comes anywhere near the requirements. Will you tell me what a sensible estimate of the ideal husband would be? I fear I may have been too exacting.

ANNABEL

Dear Annabel: I made up my mind, just as you have done, and I am overjoyed to be able to tell you just what he is like. He is about five feet eleven inches in height, has gray eyes and brown hair. He is clever, but not so much so but that he believes me to be the possessor of much the brighter mind of the two. He sings divinely; plays the piano like a master; dances beautifully; is always well, but never overdone. He adores me and loves to wait upon me, hand and foot. He seldom drinks, and smokes only after dinner. He always remembers those little attentions that made him so fascinating at first. If you get what I mean. Theatre tickets, flowers, phonographs, and so on. I never tire of thinking of him, either. He was never born.

"You will never get anywhere unless you have higher ideals than this," preached the woman to whose door the tramp had applied for assistance. "Are you really content to spend your life walking around the country begging?"

"No, lady," answered Weary Willie.

"Man's the time I've wished I had an auto."—Legion Weekly.

"Daddy," said little Eddie, "please get a gun."

"Why do you want a gun?"

"I'm sick of being called a sissy. Nearly every boy in this block has shot himself or somebody else."

Isaac—I see that Goldstein is taking exercises to reduce his weight.

Jacob—Yes, he bought a bargain suit of clothes that were too small for him and now he has to recondition himself in order to make use of them.

The Grum Trampus

First Tramp (mousing)—Do you know, pard, they say dreams never come true?

Second Tramp—They do sometimes. When I was a kid I used to dream of the floor I could wear long pants. I wear them.

Well—That's Fare

"Yes, stree," said the late stayer to his yawning sweetheart, "if I had money, I'd travel."

Impudently she slipped her hand into his, then rising swiftly, she sped into the house.

Against, he looked at his hand. In his palm lay a nickel.

Mrs. P. Rothrock was taken to the Florida Sanitarium on Wednesday and will undergo an operation during the next week. All the children have been summoned to her bedside and her husband, former city councilman in this city, has great fears of her condition proving serious.

Mr. V. McClain and wife who have been spending the summer in the north returned here last Wednesday night to spend the winter. Mr. and Mrs. McClain have spent the past several winters in St. Cloud and their many friends will be glad to hear of their return.

Will Quigley and son, Robert, of Muncie, Ind., stopped here Monday to visit Mrs. M. Pickett Foster and leave that an uncle, Geo. Kirkpatrick was in this city and had a pleasant visit with him at the city park during the Armistice Day celebration. After enjoying a good dinner at the park Quigleys left for Brantstown, Va.

Henry G. Blackew, who has spent eight winters here in association with his old friends. He spent some time in Michigan this summer and reports that in his summer home a city chest or community fund of \$2,500.00 was raised for all public movements in one drive a year, and no other calls were made on the public for any purpose.

Uncle Josh and Mrs. Ferguson received letter from Miss Augusta Komer of Lamoni, Iowa, stating her father was taken quite ill and had to be taken to the Hospital at Des Moines and that she did not think it possible they could get to come this winter to St. Cloud. She was so disappointed that she wrote to her friends to come to Florida again this winter and included two dollars for the St. Cloud Tribune, as she wished to keep in touch with Saint Cloud and her good people as much as she could and requested the prayers of her friends for the father who is in the hospital.

Claims to Have Oldest Tax Receipt. P. Rothrock, former city councilman of St. Cloud, owns what he believes is the oldest tax receipt in existence today. The receipt while not having the name of the town on the paper was in North Carolina, reads as follows:

"Received, this 15th day of May, 1801, from Philip Rothrock, (Peterson), one dollar, in full of his County and Poor TAXES for the year one thousand eight hundred and twenty-three. (1823)." C. J. Baine, Sheriff.

Mr. Rothrock says if anyone has a tax receipt older than that he would like to hear from them.

STOP!

BE A BOOSTER

What we need in the ranks of St. Cloud people is a policy of boosting. There has been enough knocking in the past to serve for all time. Knocking is destructive always. Let's try to get our minds on the good things we can say about each other, and then say them. Speak a good word for the other fellow, and if we can't do that say nothing. But if we will try we will find something good that can be said.

When all our people adopt this policy, get their names off the knocker list and on the honor roll of the boosters, forever cease their destructive tactics and become helpers, everybody will soon be following.

Lack of co-operation means bad feeling, disturbed nerves, depression and injury to the general welfare. A policy of confidence and helpful co-operation is constructive, uplifting, and is calculated to promote the best interests of all concerned.

Let's all help. Let us be big enough and sane enough and unselfish enough to co-operate on a high, moral plane; to live and let live; and to work for the general good. In every act let us consider the other's welfare as well as our own, for this is positively required by the moral law.

Harness Races for State Fair

Horse lovers at the State Fair this year will revel in one of the greatest harness race programs that has ever been seen in Florida. Two of the many entries are pictured above.

THE FLORIDA TIMES-UNION

Why do nearly 40,000 residents of Florida subscribe regularly for the Times-Union?

Not merely because they will find the latest news from everywhere reported interestingly and accurately at the earliest possible moment. Not because its special articles instruct and its features entertain. There is something more than that. A newspaper isn't a mere chronicle of events. It is a personality. It comes into your home almost as a member of your family and if it is the proper sort is welcomed by everyone.

What sort of person do you like to have visit you?

He ought to be honest, courageous, no hypocrite, and of many instincts, with a real interest in you, ready to lend you a hand if you need help. Cheerfulness and good humor are excellent qualities, and a wide range of interests.

What do you find in the Florida Times-Union?

It has opinions, of course, and it speaks them out freely. They are its own and they are not influenced by outside interests. Its criticism is constructive and it realizes only as it is of service to the community can it meet with a reasonable measure of success. To be of practical assistance in the development, progress and growth of the state so that every citizen may have the opportunity of earning a decent livelihood and accumulate in tangible form a share of the state's prosperity is its platform.

In handling news it discloses the deceptions and uncertainties of life. It never wantonly brings shame or sorrow to any home. Each issue is complete, the intelligence not being offered by the publication of piecemeal editions. Its advertisements are exact. The world it surveys with good cheer, looking forward to a content tomorrow.

If not a subscriber you are cordially invited to become a member of its family of readers.

AMERICA'S GREATEST HIGHWAY

The most spectacular piece of construction work in Florida will soon be under way between Key West and Miami—the building of a highway of 120 miles long connecting the island city with the mainland of Florida.

The project, entailing the building of a road over thirty or more small islands, was asserted last week by the overwhelming vote given by Key West and Monroe county to the proposed \$200,000 bond issue.

Back in 1906, Henry M. Flagler pushed the Florida East Coast railroad through from Miami to Key West. The "overseas railroad" traversing the small islands down to the southernmost city of the United States was heralded far and wide as one of the greatest construction enterprises ever attempted.

The taxpayers of Dade county and Monroe county will now emulate the noted railroad pioneer's example. Dade county, a year ago, started the movement for voting \$100,000 for a road from the present terminus of the Dixie highway at Florida city, 20 miles south of Miami, to the shores of Biscayne Bay, in a southward direction. The commissioners, however, provided that Monroe county first must build a bridge from the shore line to Key Largo, the largest of the keys between Miami and Key West. Monroe county's action last week assured not only enough to build the bridge or causeway, but enough to build several miles of the road over the keys.

There are more than thirty islands extending in a southwesterly curve to Key West. Some are 10 miles long, others scarcely more than a mile. In most cases, however, the distance between the islands is negligible and the depth of water not more than three or four feet. The construction job, therefore, will require, for the most part, simply the dredging of lagoons separating the islands and the throwing up of causeways between them—much the same as the long causeway between Miami and Miami Beach was constructed. Bonds have already been constructed over several of the islands, and the connecting of these links will be part of the job. Between Key Marathon and Key Misouri is the most water—eight or ten miles across, and the plans for traversing this bay are vague at present, although it is believed that a ferry will be put in here until sufficient funds can be raised to build a suitable viaduct.

While the \$200,000 voted by Monroe county and the \$100,000 already voted by Dade county will provide only enough to start the highway, it will be an easy matter to raise enough by bond issues to complete the road. Real estate values up the keys doubled over night as the result of Monroe county favoring the bond issue. With the completion of the first link to Key Largo, enough new taxable property will have been created to more than pay for the highway.

So, within another year, possibly two years, there will be a fine road-way extending from Miami southward through the interesting farming section of Larkin Homestead and Florida City; thence across a flat, virgin country to the south end of Biscayne Bay; thence, across a causeway to Key Largo, and as spectacular and interesting as the Florida East Coast Railway's extension.

It's Kiddies Day At The State Fair

The most wonderful exhibit in the history of the Florida State Fair—the most precious products that a country can have—laughing, playing, joyful boys and girls—will play a bigger part than ever before in the program of 1923. Thousands of youngsters like this one will throng the grounds of the State Fair on Friday, November 16, which has been set aside for the State Fair's young visitors.

CHILDREN TO HAVE BIG DAY AT THE FLORIDA STATE FAIR

Unusual Entertainment Program Arranged For Kiddies—Friday, November 16, Is The Date Selected.

Forty thousand happy boys and girls are expected to answer the call for them that will be sent out by the Florida State Fair this year on Children's Day, which is to be held on Friday, November 16th.

The Florida State Fair has well under way to maturity, plans for such a children's day as will make the event in the minds of the kiddies one long to be remembered. A big celebration with lots of music, hippodrome attractions, races, and the like—all of it so dear to the hearts of the young, and the old alike—will be held on the big day.

All children will be admitted on this day for ten cents. The entire dates of the fair will be November 15-24.

Many a man likes to blame heredity when it is an acquired disposition that causes the trouble.

Analysing cost records and farmmanagement systems on 25,000 farms
is one of the diverse roles played by
the United States Department of
Agriculture the past year. The pur-
pose of this work is to discover the
factors that make for an efficient,
businesslike agriculture, and then to
spread the gospel of better farm man-

PROGRAM OF THE KISSIMMEE ROUNDUP

(WHAT YOU WILL SEE)

- EVENT NO. 1—Grand Entry of contestants Cowboys and cowgirls from all parts of the west, showing about 50 mounted people.
- EVENT NO. 2—Introduction.
- EVENT NO. 3—Riding Wild Steers by the cowboy clowns, John Crethers, Little Willie and Little Texas Jack Knapp, world's funniest little clown.
- EVENT NO. 4—First section Bucking horse riding Contest. A number of bucking horses will be rode this section.
- EVENT NO. 5—Shooting exhibition by Mildred Douglas Hinkle.
- EVENT NO. 6—Steer riding contest. Watch the big wooden chutes.

- EVENT NO. 10—Bucking horse riding by Mabel Baker from Hollywood, California, noted lady bucking horse rider.
- EVENT NO. 11—Tom Hitt in an exhibition of Australian bull whip manipulating.
- EVENT NO. 12—Horse 'Thief' act (clown number)
- EVENT NO. 13—Horse roping, showing you the many different ways a horse can be caught, also roping from 5 to 8 horses with one loop, by Jimmie Eskew and Scotty Whittree.
- EVENT NO. 14—Steer riding contest (2nd Section)
- EVENT NO. 15—'HINKLE' that funny little mule and two others. Plenty of laughs in this act.
- EVENT NO. 16—Bucking horse riding (Contest for Florida cowboys only).
- EVENT NO. 17—Chase for the Bride.
- EVENT NO. 18—Steer bulldogging contest. This is one of the most daring feats ever performed by any human being. A cowboy jumps from the back of a running horse to the head and horns of a long horn Texas steer and throws the steer to the ground with the hands and teeth alone. Steer is given ten foot start from chute; rider must overtake steer, jump to the steer's horns while running at top speed and throw the steer flat on his side, then put one hand in the air to signal time judges. Man making the best time wins.
- EVENT NO. 19—Introducing Milt Hinkle's famous bucking FORD. This act alone is worth the price of admission.

ALBERT DIEFENDORF
PASSED AWAY
SUNDAY.ST. CLOUD LOSES VALUABLE
BUSINESS MAN AND CITY OF-
FICIAL. DEPARTED HERE
VERY HERE.

Our community suffered a very severe shock last Sunday when the news spread of the sudden death of our townsman, Albert Diefendorf. He has been associated with the active business affairs of the city since locating here in 1900. At the time of his death he was a member of the city Council, of which he was president in addition to being one of the leading real estate dealers and insurance men.

Albert Diefendorf was born in Salem, Indiana, March 3, 1850 and departed this life November 11, 1933. He was reared on a farm in a Quaker settlement. He was born of Quaker parents and grew up in the splendid Quaker faith and influence, a fact of which he was always justly proud. This fact, no doubt, contributed largely to his splendid character and manner of his splendid dealing with all men. His ambition for a life of activity in the business world led him to the city in early manhood, and with a brother he purchased a grocery store at Campbellburg and later sold his interest and went to Oden, Ind., where he purchased a grocery which he owned and operated successfully for twenty-seven years. There he would no doubt have spent the balance of his days had not the severe winters dealt so harshly with him. This, however, made it necessary for him to seek a warmer climate and no doubt laid the foundation for his untimely death. He opened and operated the first grocery store in St. Cloud which he later sold and entered the real estate and insurance business. This business he followed up to the time of his death. He put in a busy week even working up to office closing time Saturday night before he was called home Sunday.

December 25, 1881 he was united in marriage to Lydia M. Russell at Bonds Chapel, Indiana. The faithful wife whom we all love and who lives to mourn his departure. To this union were born three children, of whom died in early life. The third, Irvin E., has lived in St. Cloud since 1915 and is the efficient and popular A. C. L. agent at this place.

Mr. Diefendorf was a loving, affectionate husband, a kind, considerate father, a loyal friend and companion and in his passing St. Cloud has lost one of its best citizens and officials. He believed in and practiced the principles of justice between man and man. He was frank and plain spoken open-minded for conviction when convinced of the justice of a cause no power or influence could cause him to act contrary to his conscience. No man sought to be right harder than he and no man acted quicker in correcting a wrong should one occur, than did he.

The funeral service was conducted from the Diefendorf home at 2:00 P. M. Tuesday, by Elder Hauser, the pastor of the Christian Church, of which Mr. Diefendorf was a member. The remains were tenderly laid to rest in Mount Peace Cemetery under the direction of Elisabeth Ross. He is not dead but gone in life beyond the clouds, there to join his Savior and loved ones who have gone before and to await the coming of loved ones and friends who are soon to follow.

Card of Thanks.

We wish to extend our thanks to the dear kind friends who in any way expressed their sympathy for us in our loss of a husband and father, MRS. A. DIEFENDORF.

MANSIONS TO ATTEND DIVINE WORSHIP ON NEXT SUNDAY

The Worshipful Master of St. Cloud Lodge No. 221, P. A. & M. has announced that the lodge as a body will attend Divine Worship at St. Luke's Episcopal Mission on next Sunday afternoon at 2:30 o'clock. The members are asked to assemble at the lodge room at 2:00 o'clock and all visiting members of the order are invited to participate. Rev. Wm. Westover will deliver the address.

Presbyterian Church News

Everything went off fine at the church Sunday. There was a large attendance both at Sunday School and preaching, and in the evening we had a fine Christian Endeavor meeting. Next Sabbath the services will be as usual except at 7:00 P. M. The services will be conducted by Mr. C. H. David Dot, Superintendent of the Anti-Saloon League. The Christian Endeavor will be following this service. Don't forget the mid-week prayer service Wednesday evening at 7:00 P. M. Every one welcome to every service.

St. Thomas's Church News

The Ladies Altar Society held their regular meeting at St. Thomas's church Nov. 11, 1933 with good attendance and with our new president Mrs. Brock presiding. Meeting was opened with prayer.

A Silver Tea was suggested to be held at the home of Mrs. Marcella Nov. 7 at 3 P. M.

Next meeting to be held at St. Thomas's Church on Illinois and Tenth St., Dec. 10th at 2 P. M.

Every one welcome. The silver tea held at the home of Mrs. Marcella Wednesday Nov. 7 at 3 P. M. was a real success. As the silver taken in was a fine sum, after which good refreshments were served by the hostess. And we will all look forward for the next one.

There will be no service in St. Luke's Episcopal Chapel on Sunday morning, November the 15th.

BETWEEN TWO LIVES

PLEASED LARGE AUDIENCE.

Friday evening of last week the students of the St. Cloud High School passed a large audience with the little play, "Between Two Lives". The plot related to the life of the old time farmer and brought the families on down to the modern agricultural school graduate who returned home and made the old farm a success. The class deserves much credit for the good work done, as the play impressed the audience with the necessity for encouraging the study of agriculture, which has only recently been added to the courses in the local high school.

A short announcement by Prof. Geiger, in charge of the agricultural class, was made at the opening of the show, stating that the funds from the play would be used to send boys to state meets at different places to act as judges of exhibits, these places to be filled from the class, those making the best averages in their studies being awarded the honor. Four of the St. Cloud boys expect to go to Jacksonville to attend the state fair during the next week. The receipts was pleasing and enables the St. Cloud class to send a fair sized exhibit of St. Cloud products to the fair. These products were shipped today.

Every part of the little play was well rendered and much credit is due Miss Weisched for her instructions to the members of the troupe.

Card of Thanks.

Mr. and Mrs. Chas. Reilly wish to say that they are very thankful to all who so kindly assisted them during the illness of their son, and do not blame anyone for her death. 11.
